<p><a href="#">Numberblocks</a> <a href="#">BBC iPlayer Series 2: The Three Threes</a></p> <p>The focus is on the inverse relationship “Doing and Un-doing.” 9 splits into 3 equal parts of 3 and then recombines to make 9.</p> <p><b>Day 1</b> - Enjoy watching Numberblocks series 2: The Three Threes.</p> <p><b>Day 2</b> - Watch the same episode again. Ask the children what they noticed. Pause it at various points to see if children can tell you the addition calculation when 9 splits up (3+3+3)</p> <p><b>Day 3</b> - Can the children make sets of three 3s? You could use 9 pencils and split them into three sets of 3. Try it with spoons, toys, teddies or cups. Encourage the children to say what they can see, “I can see three 3s.”</p> 	<p><a href="#">Phonics- Set 1 and set 2 sounds</a> These are on daily. Please remember to practise writing each sound.</p> <p><a href="#">Reading- RWI books</a></p> <p>Last week you watched the story of The Little Red Hen.</p> <p>Talk about your favourite part of the story, why do you like that part? Who is your favourite character?</p> <p>Can you say some of the phrases from the story using the voice of the character?</p> <p>Children can draw one of the story characters that did not help the hen. Underneath their picture, children can have a go at writing the sentence, ‘I will not help the hen’. Children should use their knowledge of the sounds to help them write the sentence.</p> <p>Alternatively, you could draw one of the animals from the story and write what it is e.g. hen, duck, pig, cat, dog.</p>	<p>Can you use some flour to do some home baking with a grown up? You could try cupcakes or making some pancakes?</p> <p>Using any bricks you have at home (e.g. Lego, Duplo, Megablocks) you can build a windmill or a farm. You might even want to have a go at making a windmill or a farm from recycled materials.</p>  	<p>Enjoy a picnic outside with your family. If you don’t have a garden, have a picnic in your living room – put a large sheet/piece of material down and spend some time eating together. Maybe you could even help make the picnic sandwiches etc. You could eat what you have made with the flour from the curriculum idea.</p>

Home Learning week beginning: 27.4.2020

Year Group: Early Years

HUNTINGTOWER  
A PRIORY ACADEMY

<p><b>Day 4</b> - Take a photo or draw a picture of your 3 sets of 3 objects. You could post it on Twitter. To challenge yourself, you could try different square numbers e.g. 4, 16, 25 and see what sets you get (Two 2s, Four 4s, Five 5s).</p>			
--	--	--	--

<p><b>Day 5</b> - Think of 3 movements and do them all three times. You could try star jumps, clapping, hopping. How many times can you do all three movements, three times each in one minute?</p>			
---	--	--	--

These activities are a suggestion of how you can spend your week on home schooling. It does not have to be structured this way or attempted all in one go. Please do not worry if you have not managed to complete everything.

#### Reading- RWI Ebook library

Here you will need to have a parent account or the class account to sign in to access the RWI books. We recommend reading the books three times. You can also look at the vocabulary and questions on the other two days, so a book should last a week.

Remember you can share what you have been up to through your parent's twitter account and tagging your class or @huntingtower. Remember your E- safety rules of not sharing your name and details online.
