could draw them on, cut and stick them on, or use collage materials.  
**Day 5** – Can you remember which Numberblock was not ticklish? Why did the other Numberblocks want to combine to make seven?  
Using objects from your home (e.g. pasta, spoons, and Lego pieces) explore how to make seven from numbers 1-6. You might want to use three plates to make a part- part whole.

These activities are a suggestion of how you can spend your week on home schooling. It does not have to be structured this way or attempted all in one go. Please do not worry if you have not managed to complete everything.

#### Reading- RWI Ebook library

Here you will need to have a parent account or the class account to sign in to access the RWI books. We recommend reading the books three times. You can also look at the vocabulary and questions on the other two days, so a book should last a week.

Remember you can share what you have been up to through your parent's twitter account and tagging your class or @huntingtower. Remember your E- safety rules of not sharing your name and details online.
