

Huntingtower CP School

Where learning comes to life

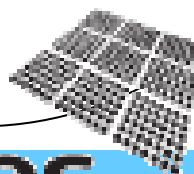

Can you design the winning poster to raise awareness of 'health and safety' issues around you and on a construction site?

Think back to the assembly on Wednesday. What did the children need to put on and why?

Hand your homework to your teacher, making sure your name is on it as this is also a competition. If your design is the winner, Wates will have it made into a large poster which will then be displayed on the bulletin board outside the school, where **all** passers-by will be able to see it! There will also be another prize.

To be handed in on Friday 12th November.
